SKILLS

- ❖ JavaScript
- ❖ HTML, BOOTSTRAP, CSS
- ❖ GITHUB/GIT
- ❖ FIREBASE

EXPERIENCE

- ❖ I have no work experience
- ❖ I am looking for an internship to get experience and the opportunity to improve my skills in this field.

PROJECTS

❖ Assignment Portal

Here, you'll find all the projects I've worked on, covering a range of web applications and useful tools.

❖ Website with firebase

This project is a **dynamic content management system** that enables users to signup with email and password or with google and create, edit, delete, and interact with posts effortlessly. With a user-friendly interface and admin dashboard, managing posts and users becomes simple and efficient.

❖ To-do list

This **To-Do List Website** is a simple yet powerful task management tool designed to help users stay organized and productive. Whether you need to track daily tasks, set reminders, or manage long-term goals, this app provides an intuitive and efficient way to manage your to-dos.

❖ Portfolio Website

Welcome to my portfolio! Here, you'll find a collection of my **key projects**, showcasing my skills in **frontend, backend, and full-stack web development**. For a complete list of my projects, check out my **Assignment Portal**.
